

LT. GOVERNOR'S Computing Challenge

Kids want to code. And compute. When they do, success follows!

ALL LEVELS WELCOME! NO EXPERIENCE NEEDED!

Computing is not the future. It's the **here and now!** It's fun, and the LGCC is offering students **FREE** virtual computing lessons that can help students with LGCC submissions.

CT students in grades 3-12 can submit as individuals or groups in one of three categories: *Concept, Prototype, and Development.*

Get ready to be **IMPRESSED** by what you see!

The challenge is ON, themed on "Coding for Good." #health #wellness

You may not know CS, but your kids do, and ***they want to know more.***

Due date: April 28
Encourage participation!

LT. GOVERNOR'S Computing Challenge

Join the Challenge and Code for Good!

Coding For Good - is creating technology that inspires health and wellness

Spreads a Positive Message | Solves an Problem | Promotes Healthy Relationships

NO EXPERIENCE NEEDED!

WHICH TYPE OF CHALLENGE IS BEST FOR YOU?

LT. GOVERNOR'S
Computing Challenge

CONCEPT CHALLENGE	PROTOTYPE CHALLENGE	DEVELOPMENT CHALLENGE
		
Great project idea with complimentary audio-visual component.	Partially functioning prototype with the concept behind it.	Fully-functioning project that users can engage with.

ALL Connecticut students in grade 3 through 12 can participate!
